Product Description

High Gloss Marble Design PVC Film For Kitchen Counter Top Decoration

Detail Description

- 1. Polyvinyl Chloride (PVC)** is the main material used to make our pvc foil. PVC is a synthetic plastic that is highly processed, flexible, and long-lasting.
- 2. Look:** There are many different hues, designs, and textures available for our pvc foil. With the ability to replicate the appearance of natural materials like metal, wood, stone, or cloth, it offers a more affordable option without sacrificing style.
- 3. Versatility:** Numerous surfaces, such as walls, doors, cabinets, furniture, and more, can be coated with our foil. It can be utilized in a variety of interior spaces and sticks nicely to various substrates.
- 4. Durability:** Realsun Deco pvc foil is known for its durability and resistance to wear and tear. It can withstand daily use and is often chosen for high-traffic areas.
- 5. Maintenance:** Our pvc foil requires little upkeep once it is placed. It is simple to maintain and usually just has to be wiped down once a week with a moist cloth.
- 6. Cost-effective:** The affordability of pvc decorative foil in comparison to natural materials is one of its main benefits. It makes it possible to create upscale aesthetics without incurring the related expenses.
- 7. Modification:** A large range of styles and finishes are available from manufacturers, enabling modification to meet project specifications and personal design preferences.
- 8. Application:** Decorative pvc foil is frequently used for wall paneling, furniture surfaces, retail displays, interior doors, kitchen and bathroom cabinets, and other uses in both home and commercial settings.
