

Aluminum Profile PVC Lamination Roll Adaptable For Window Frame

Our Product Introduction

for more products please visit us on realsundeco.com

Basic Information

- Place of Origin: Foshan, China
- Brand Name: Realsun Deco
- Minimum Order Quantity: 3000m/model
- Price: Negotiable
- Packaging Details: Pack in roll
- Delivery Time: 15-20 days
- Payment Terms: T/T 30% down payment, 70% balance before shipment
- Supply Ability: 500000m/month

Product Specification

- Surface: Glossy, Matte, Embossed, Super Matte, Soft Touch
- Application: Furniture, Door, Wall, Kitchen Cabinet, Ceiling Etc.
- Length: 100m-400m/roll
- Thickness: 0.1mm-0.5mm
- Material: PVC
- Service: OEM, Customized Design And Size
- Usage: Lamination, Vacuum Membrane Press, Wrapping, Hot Press And So On
- Width: 1260mm, 1400mm
- Highlight: **Aluminum Profile Pvc Lamination Roll, Aluminum Profile lamination pvc film, Window Frame Pvc Lamination Roll**

Product Description

Aluminum Profile PVC Lamination Film Adaptable for Window Frame

Product Description:

Our **PVC foil** is primarily made from **Polyvinyl Chloride (PVC)**, a synthetic plastic material known for its **durability, flexibility, and ease of processing**. It is available in a wide range of colors, patterns, and textures, that can mimic the look of natural materials such as wood, stone, fabric, or metal, providing a **cost-effective alternative** to these materials while retaining a **high-quality aesthetic**.

It can be applied to a variety of surfaces, including doors, cabinets, furniture, walls, and more. It adheres well to different substrates and can be used in different areas indoors. It is renowned for its resilience to deterioration and strength, so it is often used in high-traffic locations.

Low upkeep is one of the great benefits of Pvc foil. It is simple to maintain and usually just has to be wiped down once a week with a moist cloth. Moreover, its affordability in comparison to natural materials is one of its **main benefits**. It makes it possible to create upscale aesthetics without incurring the related expenses. A large range of styles and finishes are available from manufacturers, enabling **modification to meet project specifications and personal design preferences**.

It is **commonly used** in residential and commercial settings for applications such as **kitchen and bathroom cabinets**, interior doors, wall paneling, furniture surfaces, retail displays, and more.

Technical Parameters:

Thickness: Ranging from 0.1mm to 0.5mm.

Width: 1260mm and 1400mm.

Length: 100-400m per roll.

Design: Designs may includewood grain, solid color, marble, brick etc.

Surface treatment: Matt, super matt, embossed, high gloss and soft touch.

Service: Offering both OEM and ODM services.

Applications:

There are five different processes available for different applications: **Membrane Press (vacuum press)**, **Wrapping Profiles**, **Cold Laminating**, **Hot Laminating**, and **Self-adhesive**.

The **Membrane Press (vacuum press)** process has a thickness range of 0.20-0.50mm, width of 1260mm and 1400mm, and a length of 100-300m/roll. With it, MDF, particleboard, wooden board, fiberboard and other material can be covered for doors, kitchen cabinet, wardrobe and furniture. This process can also cover embossed board at the same time.

The **Wrapping Profiles** process has a thickness range of 0.12-0.18mm, width of 40-1260mm, and length of 300-800m/roll. It is applicable to all kinds of profiles such as wood, aluminum and PVC, with uses including door frame, window sill, base channel and PVC ceiling.

Cold Laminating has a thickness range of 0.12-0.20mm, a width of 1240-1260mm, and a length of 300-500m/roll. It is suitable to cover flat panels like wood, steel, aluminum and PVC for doors and furniture.

Hot Laminating is effective for PVC panel, steel panel and aluminum panel, with a thickness between 0.16 and 0.30mm, a width of 1260mm, and a length of 200-300m/roll. The primary uses are doors, skirting and so on.

Lastly, **Self-adhesive** is a process that has a thickness range of 0.10-0.20mm, width of 600mm or 1220mm, and length of 5 to 50m/roll. It can be used for furniture and indoor decorations.

Customization:

PVC Lamination Film

Brand Name: Realsun Deco

Place of Origin: Foshan, China

Minimum Order Quantity: 3000m/model

Price: Negotiable

Packaging Details: Pack in roll
