Product Description

Waterproof Rigid PVC Foil for Furniture Kitchen Cabinet Door Ceiling Decoration

Product Description:

Material: Our PVC foil is made of Polyvinyl Chloride (PVC), a type of synthetic plastic which is strong, flexible, and simple to process.

Appearance: We offer a range of colors, patterns, and textures for our PVC foil. It is a cheaper and long-lasting alternative to real materials such as wood, stone, cloth, and metal, while being able to imitate their luxurious aesthetic.

Adaptability: It is suitable for numerous surfaces, from walls to doors, cabinets to furniture, and can be applied to any interior setting.

Durability: PVC foil is resilient and unlikely to degrade over time, making it a favorable choice for areas with heavy traffic.

Maintenance: Maintenance is hassle-free as the material only needs to be wiped with a damp cloth once a week.

Economical: One of the significant benefits of using PVC decorative foil is its affordability compared to real materials.

Modification: It comes in various styles and finishes, making it easy to modify as per individual needs or design preferences.

Application: It is frequently used in various settings both at home and in commercial establishments, such as for wall paneling, furniture surfaces, retail displays, and interior doors.

Technical Parameters:

Thickness and Width Range:

Our PVF film offers a range of thicknesses from 0.1mm to 0.5mm and widths of 1260mm and 1400mm.

Length of Film:

We supply our PVF Film on rolls ranging from 100-400m in length.

Designs:

Our film offers a wide variety of designs including wood grain, solid colors, marbles, bricks, and much more.
