- Highlight: **Matte Texture Coating PVC Printable Film ,
Brick Surface PVC Printable Film**

Product Description

Product Description:

Our pvc foil is primarily composed of Polyvinyl Chloride (PVC), a strong, flexible, and easily processable synthetic material. With a variety of colors, patterns, and textures to choose from, our pvc foil can emulate the appearance of natural materials such as wood, stone, fabric, and metal, providing a cost-effective alternative without compromising on quality.

Its versatility allows it to be applied to various surfaces, including doors, cabinets, furniture, and walls, making it suitable for different interior areas.

Known for its resilience and strength, Realsun Deco PVC foil is highly durable and commonly used in high-traffic locations.

Once installed, our pvc foil requires minimal maintenance, simply needing to be wiped down with a damp cloth once a week.

One of the main advantages of pvc decorative foil is its affordability compared to natural materials, making it possible to achieve upscale aesthetics without incurring high expenses.

With a wide range of styles and finishes available from manufacturers, our pvc foil can be customized to meet specific project requirements and personal design preferences.

This versatile material is commonly used in both residential and commercial settings, including kitchen and bathroom cabinets, interior doors, wall paneling, furniture surfaces, and retail displays.

Technical Parameters:

PVC Film Detail Specification

The PVC film specification includes the following details:

Thickness: 0.1mm-0.5mm

Width: 1260mm, 1400mm

Length: 100-500m/roll (depends on the thickness)

Design: Wood grain, solid color, wallpaper design, brick design, marble design, flower design, laser design, and more.

Surface Treatment: Matt, with embossed (texture), or high gloss finish.

Service: We offer OEM services, customized designs, and sizes to meet the specific needs of our customers.

Applications:

Membrane Press

Cover your MDF, particle board, wooden board, fiberboard, and more with our membrane press for beautiful doors, kitchen cabinets, wardrobes, and furniture.

Wrapping Profiles

Our wrapping profiles can be applied to a variety of profiles including wood, aluminum, and PVC. Use them for door frames, window sills, base channels, PVC ceilings, and other applications.

Cold Lamination

Add a layer of protection to flat panels with our cold lamination process. Suitable for wood, steel, aluminum, and PVC panels, perfect for doors and furniture.

Hot Lamination

Our hot lamination process is ideal for PVC, steel, and aluminum panels used for doors, skirting, and more. Give your surfaces a smooth and durable finish.

Self Adhesive

Create a hassle-free application process with our self-adhesive PVC film. Made with PVC decorative film and an environmental acrylic pressure sensitive adhesive, it can easily and firmly adhere to furniture and decorations.

At Realsun Deco, we specialize in providing customized PVC composite film solutions. Our Marble PVC Film is a popular choice for its realistic and high-quality marble design. With our customization service, you can choose from a variety of options to create a unique and personalized product tailored to your specific needs.

Our company, Realsun Deco, is based in Foshan, China, and we are proud to offer a minimum order quantity of 3000m/model. Our prices are negotiable, and we offer roll packaging for your convenience. With a delivery time of 15-20 days, we ensure prompt and efficient service to meet your deadlines.

We accept T/T payment terms with a 30% down payment and 70% balance before shipment. Our supply ability is 500000m/month, making us a reliable and consistent supplier for your business needs.

Apart from our standard offerings, we also provide OEM and ODM services to our customers. This means you can customize the thickness (0.10mm-0.5mm) and width (1260mm, 1400mm) of our Marble PVC Film according to your requirements. You can also choose from a range of surface options including glossy, matte, embossed, texture, and soft touch, to achieve the desired look and feel for your product.

Our Marble PVC Film is available in various colors such as marble, brick, wood grain, and more. We are committed to providing high-quality products and excellent customer service. Contact us today to discuss your customization needs and let us help you elevate your brand with our Marble PVC Film.

Packing and Shipping:

Marble PVC Film Packaging and Shipping

Our Marble PVC Film is carefully packaged and shipped to ensure its safe arrival at your desired location. Here is our packaging and shipping process:

Step 1: Each roll of Marble PVC Film is wrapped with a foam protective layer to prevent any scratches or damage during transportation.

Step 2: The wrapped roll is then wrapped with kraft paper and plastic sheet to provide additional protection.

Step 3: The roll is sealed and labeled with the product name, size, and quantity for easy identification.

Step 4: Rolls are then stacked onto a pallet and secured with plastic wrap to ensure stability during shipping.

Step 5: The pallet is then loaded onto a truck or container and shipped to your designated location.

Our team takes great care in packaging and shipping our Marble PVC Film to ensure its quality and appearance upon arrival. We also offer customized packaging options upon request. Please contact us for more information.
