Basic Information

- Place of Origin: Foshan, China
- Brand Name: Realsun Deco
- Minimum Order Quantity: 3000m/model
- Price: Negotiable
- Packaging Details: Pack in roll
- Delivery Time: 15-20 days
- Payment Terms: T/T 30% down payment, 70% balance before shipment
- Supply Ability: 500000m/month

Product Specification

- Features: Waterproof, Anti Flame, Anti-scratch, Antibacterial etc.
- Width: 1260mm/1400mm
- Surface: Smooth, Embossed, Texture, Matte, Super Matte, Soft Touch, High Gloss
- MOQ: 2000-3000m/model
- Printing: 1-5Color Printing
- Material: PVC
- Thickness: 0.14mm-0.5mm
- Usage: Lamination, Vacuum Membrane Press, Wrapping, Hot Pressetc.
- Highlight: **0.5mm PVC Membrane Foil,**
Hot Press PVC Membrane Foil,
Flexible PVC Membrane Foil

Product Description

Product Description:

Material

Our PVC foil is composed primarily of Polyvinyl Chloride (PVC), a synthetic plastic known for its strength, flexibility, and ease of processing.

Appearance

We offer a wide selection of colors, patterns, and textures for our PVC foil. It effectively mimics the appearance of natural materials like wood, stone, cloth, and metal, while also being more affordable and maintaining a premium look.

Adaptability

Our foil is suitable for a variety of surfaces, including walls, doors, cabinets, and furniture. It can be applied to numerous surfaces and is suitable for various interior spaces.

Durability

Realsun Deco's PVC foil is renowned for its strength and resistance to wear and tear. Its longevity makes it a popular choice for high-traffic areas.

Maintenance

Once installed, our PVC foil requires minimal maintenance. Simply cleaning it with a wet cloth once a week is all that's needed to keep it looking its best.

Economical

One of the biggest advantages of decorative PVC foil is its affordability compared to natural materials. It allows for the creation of sophisticated aesthetics without the associated costs.

Modification

Manufacturers offer a wide range of styles and finishes, making it easy to modify and customize to meet project requirements and individual design preferences.

Application

Decorative PVC foil is commonly used for wall paneling, furniture surfaces, retail displays, interior doors, kitchen and bathroom cabinets, and more in both residential and commercial settings.

Applications:

Membrane Press technology is commonly used to apply a decorative cover onto various wood-based materials such as MDF, particle board, wooden board, and fiberboard. This versatile process is commonly used for doors, kitchen cabinets, wardrobes, and other furniture.

Our Wrapping Profiles service allows for the application of a decorative cover onto a wide variety of profiles, including wood, aluminum, and PVC. These profiles are commonly used for components such as door frames, window sills, base channels, and PVC ceilings.

We also offer Cold Lamination, which is the process of applying a cover onto flat panels such as wood, steel, aluminum, and PVC. This method is commonly used for doors and furniture.

For a more durable and long-lasting application, we offer Hot Lamination, which involves applying a cover onto PVC, steel, or aluminum panels. This is often used for items such as doors and skirting boards.

Additionally, all of our PVC films can be made into self-adhesive PVC film. This convenient option utilizes PVC decorative film as the base material, which is then coated with an environmental acrylic pressure sensitive adhesive and protected by a release paper. This allows for easy and efficient application onto furniture and other decorations.

Customization:

PVC Membrane Foil Customization Service - Realsun Deco

Brand Name: Realsun Deco

Place of Origin: Foshan, China

Minimum Order Quantity: 3000m/model

Price: Negotiable

MOQ: 2000-3000m/model

Thickness: 0.14mm-0.5mm

Printing: 1-5Color Printing

Usage: Lamination, Vacuum Membrane Press, Wrapping, Hot Press, etc.

Features: Waterproof, Anti Flame, Anti-scratch, Antibacterial, etc.

Our PVC Membrane Foil is a high-quality, customizable product that is perfect for various applications. Made from durable PVC plastic film, it is designed to provide excellent protection and enhance the appearance of your surfaces.

Our PVC Membrane Foil is available in a wide range of colors and designs, making it a versatile choice for any project. Whether you need pvc decorative sheet, pvc decorative sheet roll, or pvc foil sheet, we have got you covered.

We have a minimum order quantity of 3000m/model, but for smaller projects, we offer a MOQ of 2000-3000m/model. Our prices are negotiable and we provide flexible payment terms of T/T 30% down payment and 70% balance before shipment.

With our state-of-the-art production facility and a supply ability of 500000m/month, we can ensure timely delivery within 15-20 days. Our PVC Membrane Foil is also highly customizable in terms of thickness (0.14mm-0.5mm) and printing options (1-5 color printing).

Our PVC Membrane Foil is widely used for lamination, vacuum membrane press, wrapping, hot press, and other applications. It is also waterproof, anti-flame, anti-scratch, and antibacterial, making it a reliable and durable choice for various projects.

Packing and Shipping:

Packaging and Shipping for PVC Membrane Foil

Each roll of PVC membrane foil will be wrapped with foam sheet, kraft paper and plastic sheet to ensure safe transportation and storage. The roll will be labeled with the product name, size, and quantity for easy identification.

For larger orders, the rolls will be palletized and shrink-wrapped for added stability during transportation.

The pallets will be labeled with the customer's information, order number, and any other relevant details.

The shipment will be arranged through reliable freight carriers to ensure timely and safe delivery.

Customers can also choose to pick up their orders directly from our warehouse.

We are committed to providing the best packaging and shipping methods to ensure that our PVC membrane foil arrives at its destination in perfect condition.
