

PVC Decorative Foil Infused with Wood Grain Design: The Vacuum Membrane Press Solution for Furniture Cabinets

Our Product Introduction

Basic Information

- Place of Origin: Foshan, China
- Brand Name: Realsun Deco
- Model Number: L20240801-7
- Minimum Order Quantity: 3000m
- Price: USD 0.5/m~USD 5/m, negotiate
- Packaging Details: 100-400m/roll, packed with long woven, Kraft paper and PVC film
- Delivery Time: 15-20 days
- Payment Terms: L/C, T/T, Western Union
- Supply Ability: 500000m/month

Product Specification

- Material: PVC
- Thickness: 0.1mm-0.5mm
- Width: 1260mm, 1400mm
- Design: Wood Grain, Marble, Brick, Flower, Stone And So On
- Length: 100-400m/roll
- Application: Furniture, Kitchen Cabinet, Door, Profile, Wall And So On
- Service: OEM, ODM
- Surface: Matt, Embosse, High Gloss, Soft Touch
- Usage: Lamination, wrapping, vacuum Membrane Press
- Highlight: **Wood Grain Design Pvc Decorative Foil ,
Furniture Cabinet Pvc Decorative Foil ,
Vacuum Membrane Press Pvc Decorative Foil**

Product Description

Wood Grain Design Pvc Decorative Foil For Vacuum Membrane Press Furniture Cabinet

Detail Description

PVC decorative film is a thin, flexible plastic material that is used to add decorative patterns, textures, or colors to surfaces. It is commonly used to decorate and protect walls, furniture, cabinets, and other indoor surfaces.

Composition: PVC decorative film is primarily composed of polyvinyl chloride (PVC) plastic. It may also contain additives like plasticizers, stabilizers, and pigments to improve its flexibility, durability, and appearance.

Applications: PVC decorative film is versatile and can be used in a variety of applications, including:

Wall coverings and wall decals

Furniture veneers and surface protection

Cabinet and appliance door coverings

Automotive and marine interiors

Advantages: Some key advantages of PVC decorative film include:

Affordable and easy to install

Durable and scratch-resistant

Available in a wide range of colors, patterns, and textures

Waterproof and easy to clean

Considerations: When using PVC decorative film, it's important to consider factors like surface preparation, application techniques, and potential environmental impact. Some PVC films may off-gas volatile organic compounds (VOCs) over time.

Specification

Versatile Thickness Options for Diverse Applications and Durability

This PVC decorative foil is available in a wide range of thicknesses, from 0.1mm to 0.5mm, enabling users to select the most suitable option based on their specific application requirements and desired level of durability.

Accommodating Various Surface Sizes with Standard Roll Widths

The standard roll widths of 1260mm and 1400mm ensure that this PVC decorative foil can be readily applied to a diverse range of surface areas, providing a convenient solution for different project needs.

Expansive Roll Lengths for Seamless Coverage and Efficiency

Offered in long roll lengths ranging from 100m to 400m, this PVC decorative foil allows for extensive coverage with minimal seams, promoting a more efficient and streamlined application process.

Diverse Design Choices to Complement Any Décor

This PVC decorative foil is available in a wide variety of design options, including wood grain, solid color, marble, brick, and more, enabling users to select the aesthetic that best complements their desired interior or exterior décor.

Customizable Surface Finishes for Unique Visual and Tactile Appeal

The surface treatments of this PVC decorative foil, including matte, super matte, embossed, high gloss, and soft touch, provide users with a diverse range of visual and tactile finishes to choose from, allowing them to achieve their preferred aesthetic and feel.

Tailored Solutions through OEM and ODM Services

The availability of OEM (Original Equipment Manufacturer) and ODM (Original Design Manufacturer) services for this PVC decorative foil offers customers the opportunity to explore customization and private labeling options, ensuring a solution that aligns with their unique business requirements.

Suggestion of thickness and width for some application

Process Method	Thickness (mm)	Width (mm)	Length/roll (meters)	Application
Membrane Press (vacuum press)	0.20-0.50	1260,1400	100-300	Covers for doors, kitchen cabinets, wardrobes, furniture, etc. can be made of MDF, particleboard, wooden board, fiberboard, etc. Cover the embossed board, covering five areas simultaneously.
Wrapping Profiles	0.12-0.18	40-1260	300-800	Cover all types of profiles, such as base channel, PVC ceiling, window sills, door frames, and so on; these include wood, aluminum, and PVC profiles.
Cold Laminating	0.12-0.20	1240-1260	300-500	Cover on all kinds of flat panels, such as wood panel, steel panel, aluminum panel, PVC panel, etc. for doors and furniture
