Enhance the visual appeal of your furniture, kitchen cabinets, ceilings, and wall panels with our High Gloss PVC Film. The glossy surface PVC sheet is not only aesthetically pleasing but also easy to clean and maintain, making it a practical choice for various interior design projects.

### Applications:

Realsun Deco's high gloss PVC film, also known as glossy color PVC foil or semi rigid PVC foil, is a versatile product suitable for various applications in the furniture and interior decoration industry. With its origins in Foshan, China, this premium quality PVC film offers a sleek and glossy finish that enhances the overall aesthetic appeal of any surface it is applied to.

The high gloss PVC film is commonly used for lamination, vacuum membrane press, and wrapping processes, making it ideal for covering furniture, kitchen cabinets, ceiling panels, and wall surfaces. Its semi rigid nature allows for easy handling during the application process, ensuring a smooth and seamless finish.

Whether you are a furniture manufacturer, interior designer, or contractor, this product is a perfect choice for achieving a modern and sophisticated look in your projects. The minimum order quantity of 3000m/model ensures that you have an ample supply for your upcoming ventures.

When it comes to packaging and delivery, Realsun Deco ensures that the high gloss PVC film is carefully packed in rolls to prevent any damage during transportation. With a delivery time of 15-20 days, you can rely on prompt shipments to meet your project deadlines.

Moreover, the flexible payment terms of T/T 30% down payment and 70% balance before shipment make it convenient for businesses to manage their finances. The negotiable pricing and high supply ability of 500,000m/month further add to the product's appeal, offering cost-effective solutions for large-scale projects.

Realsun Deco also provides excellent OEM and ODM services, allowing customization options to meet specific requirements. With a length range of 100m-400m and thickness options from 0.15mm to 0.5mm, you can choose the perfect specifications for your applications.
